No Celebration

Paradise Lost

Take my hand,
Hurray for the winters come
Cease my plans
Excuse me from the scenes of oldI can meet you there?, I just don't care
On this new years day
With no celebration from meUnderstand
There's comfort with the wealth of gold
Increase demands
Release me from the scenes of oldI can't make it clear you just won't hear
On this new years day
There's no celebration from meI could see you there?, we just don't care
On this new years day
Without hesitation
There's no celebration from me
