Nation In Fear

Primal Fear

Watching this planet
From far outa space
The pearl in a shadow of darkness
A fled into nowhere, without destinyThese human killers, victins won't be seen
About progression - without charity
Nation in fear -- why are we fighting
Nation in fear
The world in the eyes of a childOne nation -- one nation in fear
One nation in fearTwo years are gone
Since we've left mother earth
Surrounded by ruins -- It looks altered
All covered with dust
Surrender to the seerThere's nothing left
Where is our mankind gone
Or where or lonely brothers tired of life
Nation in fear -- why are we fighting
Nation in fear
The world in the eyes of a childOne nation -- one nation in fear
One nation in fear
