

She Just Don't Want To Be With You Anymore

[Jens Lekman](#)

There's word on the street about her
A nasty rumour
You look up her name on the party last night
You'll find her with another lover
But there is no loverShe just don't want to
Be with you
AnymoreShe just don't want to
Be with you
AnymoreI'm sure if I'll ask again
She'll tell me what she's already told me
She'll say she doesn't want to be with anyone
Anyone and anyone only
But there is no onlyShe just don't want to
Be with you
AnymoreShe just don't want to
Be with you
AnymoreShe just don't want to
Be with you
AnymoreShe just don't want to
Be with you
Anymore
