I Know

Vanilla Ice

I know somethings shady when Im feeling it
You play the game like cards when your dealing it
I see through the eyes of a marked man
But in the streets you gotta have a game plan
Im paranoid I se them coming after me
24/7 on me constantly
I see the red beam, I walk the tight rope
But I know Im the target in the scope
YEA!
I try to weed out the real from the fake ones
Two faced ones wont you keep it real son
I can see it from a mile away
Cause Im holding it down with my feet on the gound
And they...
They're tryin to break me, they're tryin to rape me
They're tryin to bring me down
They're tryin to break me, they're tryin to rape me
They're tryin to bring me down
Chorus:
I know there's something going on
And it seems so cold
I know there's something going on
And it wont be long
I know there's somthing going on
How could you be so cold
I know theres something going wrong
Yea!
Evil lurks when you around
And then you know how it's goin down
I look deep and figure how to break free
In my pain escape from reality

I see you scoping on my life and now he tells me
You look suspicious and you plan is tryin to gank me
The mainsuspect but your the reject
You'll be the one with the gun, no respect for me
I roll deep like a bond, I got a blue print
Creep in your area lowright through the residence
Like a sniper, control the damager

Flippin the script cause Im two steps ahead of ya
They're tryin to break me, they're tryin to rape me
They're tryin to bring me down
I know there's something going on
And it seems so cold
I know there's something going on
And it wont be long
I know there's somthing going on
How could you be so cold
I know theres something going wrong
Yea!
I know theres something on
I know theres something on
Cant get this out of my head
I know there's something going on
And it seems so cold
I know there's something going on
And it wont be long
I know there's somthing going on
How could you be so cold
I know theres something going wrong
Yea!
