

# Riding On an Arrow

Axel Rudi Pell

We traveling on towards our destination  
Searching far away to the holy land  
The closer we got without hesitation

The sooner we found out is the world a land  
Time is passing on as long we ever here  
We won't stay long in the garden of fear  
Riding on an arrow, flying through the sky  
Riding on an arrow, flying on so high  
We're riding through the sky  
We fly in circles, trusting no one  
The shadows of the world are fading away  
Life's in the darkness kept on shining  
He's trying to tell the wishing tale is here to stay?
