

The Sun Song

Michael Tolcher

[Verse 1]

One more beginning for as long as it lasts
A new day for the living all forgiving of the past
A heavy foot steps to the dark unknown

This is a mystery

No security of home[Chorus]

Here comes the sun

Over my head

Show me a path and i'll be led

Walking alone

I'm not afraidI have my wings to fly away[Verse 2]

There's been a fever burning holes in your skin

A million questions

Let the journey begin

Want with a reason and you'll understand

The source is infinite

So, choose your demand[Chorus]

Here comes the sun

Over my head

Show me a path and i'll be led

Walking alone

I'm not afraidI have my wings to fly away[Verse 3]

Send in the messengers

Let the story be told

Set free philosophy with the medicines old

One in a body of a sacred plan

Part of a vision

Believe and you can[Chorus]

Here comes the sun

Over my head

Show me a path and i'll be led

Walking alone

I'm not afraidI have my wings to fly away
