

# Red Wine

Kelly Rowland

What you know about lovin' me 'til the sun comes up  
Then the sun goes down  
Can you give me that kinda love that won't give up  
Never let me down  
I discover  
True love exists  
It's common sense  
I've got confidence  
In love, in love, in love  
Oh love brought us together  
But love won't wait forever  
Let go of "whatevers"  
Got you thinking ever ? You got me over here pouring my heart out  
Saying whatever  
I shed some tears with my cuzo (Oh yeah oh yeah)  
Playing whatever  
I discover  
True love exists  
It's common sense  
I've got confidence  
In love, in love, in love  
Oh love brought us together  
But love won't wait forever  
Let go of "whatevers"  
Got you thinking ever ?
