Love In The Shadows

The Magnetic Fields

The woman with no nose
I know where she goes
The old guy with the gold eye
We go back, he and I
Don?t smile, we don?t do that here baby
Love in the shadows
Was never hard to find
Sometimes the moon glow
Plays tricks on your mind
Love in the shadows is the only kind

The whispers you hear
Are not sweet nothings
Let?s have one more beer
And I?ll tell you something
Don?t laugh, I think you?re beautiful
Love in the shadows
Was never hard to find
Sometimes the moon glow
Plays tricks on your mind
Love in the shadows is the only kind
