

# Good Again

## China Crisis

Good again  
It could be good again  
Even better than  
Than it's ever been  
Better than  
Even better than  
It could ever be  
With another man I've been a fool  
To doubt in my mind  
This could ever end  
Could be good again Times gone by  
Times gone by always too soon  
All that I love  
And all that I've loved  
Will always be with me  
Could be good again Be a friend  
Could I be your friend  
Make pretend  
I could be a friend I've been afraid  
Afraid I would lose  
You to another man  
Could be good again Times gone by  
Times gone by always too soon  
All that I love  
And all that I've loved  
Will always be with me  
Could be good again With you for me
