

Stay

Sebastian Kole

I'll stay
Cause I'm no good for anyone but you
So don't walk away
I'll stayOh baby stay
God only knows where these words can lead us
But please hear me say
That I need you to stayYou got me
You twist my arm
We're tethered together through the bond
With tear stained heartsSee there's an honour between these criminal things
We say we don't mean
We say we gonna leave but we don't
Cause we'd rather fight than be aloneSee all we can be is all we are
Two hearts
Lost without each other
Oh you're the wind in my sail
The compass that drives me to heaven or hellOh just crazy
But at least I'm not by myself
At least I have company
Least you can do is say you'll never run from me
NoSo I want you to stay
Cause I'm not good for anyone but you
So don't walk away
I'll stayOh baby stay
God only knows where these words can lead us
But please hear me say
That I need you to stayAy
Strange game we call love
See I'd break apart
If ever we'd break upOh
But to hear from you is the glue I need
To hold me together again
Don't say you're sorry
Cause sorry has never felt sorry for meCause we are just statues
Love monuments
These scars are tattoos
These words arm armamentsGuarding myself and what's left of my argument
Crying for help
When I push you awayBut you don't believe me do you

You don't mean it when you leave me do ya
We say goodbye when we should say goodnight
Cause we know that we'll try in the morningSo stay
Cause I'm not good for anyone but you
So don't walk away
I'll stayOh baby stay
God only knows where these words can lead us
But please hear me say
That I need you to stayAy
Be my forever if you choose
You're my comfort you're my bruise
Oh you're my sanity, you're my insanity
You're my gravity, you keep me grounded
You give me clouds
And I need you aroundSo won't you stay
Cause I'm not good for anyone but you
So don't walk away
I'll stayOh baby stay
God only knows where these words can lead us
But please hear me say
That I need you to stay
