Sit Still

Waked Lunch

Well, I could never sit still 'cause someone's always watchin'
I could never sit still 'cause people always talkin'
I could never sit still 'cause something's always missing
I could never sit still, I could never sit still, I could never sit still
I could never sit still, I could never sit still, I could never sit stillWe were there all the time
Yeah, we were there all the timeYeah, so saddle up
You don't know enough
And we don't give a fuck
Don't write me, write me
And for all that's coming downYeah, that's how crazy goes
Yeah, that's how crazy goesWell, I could never sit still 'cause the water's always risin'
I could never sit still 'cause I'm afraid of dyin'
I could never sit still 'cause I'm too scared to try it
I could never sit still, I could never sit still, I could never sit still
I could never sit still, I could never sit still, I could never sit stillWe were there all the time
Yeah, we were there all the timeYeah, so saddle up
You don't know enough
And we don't give a fuck
Don't write me, write meYeah, let's dig 'em up
You don't know too much
And we don't give a fuck
Don't write me, write me
And for all that's coming down
And for all that's coming downYeah, that's how crazy goes
Yeah, that's how crazy goes
I got three birds with one stone
Yeah, that's how crazy goesNever coming back, never never coming back, never never coming back
Never coming back, never never coming back, never never coming back
Never coming back, never never coming back, never never coming back
Never coming back, never never coming back, never never coming back
Never coming back, never never coming back, never never coming back
Never coming back, never never coming back, never never coming backNever never coming back
Never never coming back
