

# Labyrinth (English Translation)

## Oomph!

Left, right, straight ahead  
There's no way out, you're dead  
Left, right, straight ahead  
There's no way out, you're dead  
Left, right, straight ahead  
Left, right, straight ahead  
Left, right, straight ahead  
Left, right, straight ahead  
The madness here has locked you up  
And now your perfect world is fucked  
It's taken root inside your mind  
Run, child, run, run for your life  
You don't know now who you are  
You don't know now what love is for  
The mirrored face you see is strange  
There's no one here to share your pain  
Knock, knock, let me in  
Let me be your secret sin  
Knock, knock  
Knock, knock  
Knock, knock, let me in  
Let me be your secret sin  
Knock, knock, let me in  
Let me be your secret sin  
Left, right, straight ahead  
You're in the labyrinth  
Left, right, straight ahead  
Left, right, straight ahead  
No one here can tell you  
Which direction  
Is the right one to take  
Child for heaven's sake  
Left, right, straight ahead  
You're in the labyrinth  
Left, right, straight ahead  
Left, right, straight ahead  
No one here can tell you  
Who is good or bad  
Don't make a mistake  
Child for heaven's sake  
Time and again you've kept me out  
And hardened up your heart in doubt  
That me inside your second skin  
Has spoiled your thinking once again  
When I possess your soul, I'll say things  
And use you as my personal plaything  
The time will come I'll dull your senses  
If you don't stop this game is endless  
Knock, knock, let me in  
Let me be your secret sin  
Knock, knock

Knock, knockKnock, knock, let me in  
Let me be your secret sin  
Knock, knock, let me in  
Let me be your secret sinLeft, right, straight ahead  
You're in the labyrinth  
Left, right, straight ahead  
Left, right, straight aheadNo one here can tell you  
Which direction  
Is the right one to take  
Child for heaven's sakeLeft, right, straight ahead  
You're in the labyrinth  
Left, right, straight ahead

Who is good or bad
