

Come Back

Satin Circus

Coffee warms and stings of love
left behind when you walked out
maybe these I believe are the ones we need
careful not to lose your sense, magical the night we spend
could it be you and me, we're winded up togethers
so baby come back come back come back come back come
back

I know you really want to come back come back come back to me
oh darling come back come back come back come back
Cuz I know you want to come back come back
You got to come back to me, come back to me x2
Looking at the street below, people come and people go
Maybe I live a lie, but I wait for you
Found a note you left for me, what it means you need to say
Baby I wanna try, but I hope its sign for beginnings
so baby come back come back come back come back come
back

I know you really want to come back come back come back to me
oh darling come back come back come back come back
Cuz I know you want to come back come back
You got to come back to me, come back to me x2
Was it just a fun night out?
I'd do it again without a doubt
Everytime I try, my world tears apart
Maybe I can make you fall
I'd do stole anymore than thousand of words
And every single thing I've ever known
COME BACK TO ME x3

baby come back come back come back come back come back
I know you really want to come back come back come back to me
come back come back come back come back
Cuz I know you want to come back come back
You got to come back to me
