

# Not As Far

## Three Legged Fox

I will stand atop everything that is mine  
All that's around, beneath and inside  
I'll show courage when I feel weak  
I will listen much more than I speak  
I will accept the good  
Show more patience than I usually would  
Sure as we'll someday grow old  
I will fight for the ground that I hold

No one said it would be easy  
With everyday its a little less hard  
Stay pointed to where I am going  
With everyday its not as far

Every chance I get, I'll try to express  
Give thanks for how much I've been blessed  
Sure to take pride in all I do  
Be someone my people can bare witness to  
I'm not trying to preach or impose  
I'm a work in progress and so it goes  
And sure as the next day will come  
I'll work til my work is done

I will shake this hurried notion  
That the best is yet to come  
I will stumble here and there  
The straight and narrow, easier said than done

---
