

If There Was a Way (Remastered Version)

[Dwight Yoakam](#)

I was just standing alone in this room
Surrounded by memories, we stopped making too soon
Woah I was just standing and I was just standing alone in this room
Alone in this room And I was just thinking all to myself
How I still want you oh and nobody else
Woah, woah I was just thinking
'Cause I was just thinking, all to myself, all to myself In this darkness I move slowly
Always struggling to be free
But I still hear your voice
And everywhere I see the choice
Made such a fool of me Oh, woah I was just standing alone in this room
Surrounded by memories we stopped making too soon
Woah I was just standing
And I was just standing alone in this room
