Come Back and Stay (Re-recorded 2010)

Bad Boys Blue

Walk in the rain
Tryin' to wash away the pain
You went away
I made you cry so many daysWhere do broken hearts go to?
How can broken hearts find their way back home
When nobody cares about you and you're feeling blue?Come back and stay
Don't keep me waiting, baby
Come back and stay
Don't say goodbye
Don't let my love dieCome back and stay
And try again
Don't walk away
For I'm still your man
Where are you now?
Where did you go?Come back and stay
Don't keep me waiting
I'll miss you soWalk in the rain
Thinking about the game I play
I am to blame
I lost my lovin' yesterdayWhere do broken hearts go to?
How can broken hearts find their way back home
When nobody cares about you and you're feeling blue?Come back and stay
Don't keep me waiting, baby
Come back and stay
Don't say goodbye
Don't let my love dieCome back and stay
And try again
Don't walk away
For I'm still your man
Where are you now?
Where did you go?Since I've been gone I've missed you
I missed your touch, oh, babyCome back and stay
Don't keep me waiting, baby
Come back and stay
Don't say goodbye
Don't let my love dieCome back and stay
And try again
Don't walk away
For I'm still your man

Where are you now?
Where did you go?
Where are you now?
