

God Bless and Goodbye

Morcheeba

Questions are never answered
Glances you'll always miss
Too ready to push and pamper
You just took the glory You thought you stole my thunder
I had to snatch it back
You failed to take me under
I hit the bottom and bounced right back Oh, what can happen now
I won't cave in
My heart will open out
With love Caught in a struggle
Goodness, I've tried
You're such a puzzle
I guess, God bless and goodbye This ain't a proposition
Can you clear out your desk?
Someone in my position
I'd rather take a risk Oh, what can happen now
I won't cave in
My heart will open out
With love Caught in a struggle
Goodness, I've tried
You're such a puzzle
I guess, God bless and goodbye In a struggle
Goodness, I've tried
You're such a puzzle
I guess, God bless and goodbye Caught in a struggle
Goodness, I've tried
You're such a puzzle
I guess, God bless and goodbye In a struggle
Goodness, I've tried
You're such a puzzle
I guess, God bless and goodbye I guess, God bless and goodbye
I guess, God bless and goodbye
I guess, God bless and goodbye
