# Rain

## Stellar Road

pain is gone today
i feel like flying
through the atmosphere i feel it
sometimes we let go of that feeling
sit back relax enjoy the ride

sometimes we let go too soon
i know i`ve felt like you do
there`s pain on your mind
there`s sorrows inside
sit back relax enjoy the ride

out of the rain
out of my pain come down sun
it`s misty so kiss me no one will come
show me the moonlight baby we`ll run
it`s time to get moving i`m falling in love

i`m there on the ceiling
i`m swimming your veins
counting the days until you do the same
there`s rain on my window
it`s dripping inside
sit back relax enjoy the ride

run away with me
