So Long In Love

John Farnham

I've got a strange disposition
I've got to dig down deep sometimes
Can't explain my reasons
I didn't mean to be unkindI could not tolerate
The same from you, I know
I can't begin to understand
If you were me, I'd knowI've been so long in love with you
Though sometimes it don't show
So long in with you
I just thought you should knowYou are a constant contradiction
You keep me guessing all the time
Sometimes when I go too far
You pull me back in lineAnd if I don't go far enough
You show me what to do
I guess that's why, I've been so long
So long in love with youI've been so long in love with you
Sometimes it don't show
So long in with you
I just thought you should knowYou know I've never had to fight alone
And if I did I'd never win
Remember when I got so low
I almost threw it inThat day you drove me trembling
Back to face the world
You shook me up, you set me straight
No pity for a whispering foolI've been so long in love with you
Though sometimes it don't show
So long in with you
I just thought you should knowSo long in love with you
Though sometimes it don't show
So long in with you
I just thought you should knowGot so
Ooh, yeah
