

# Kidman Blues

## Wynton Marsalis & Eric Clapton

I had a woman, I had a woman  
Had her mouth full of shell liquor  
I had a woman, had her mouth full of shell liquor  
This woman made trouble, everywhere she go  
She had a man on her man and a kid man on her kid  
She had a man on her man and a kid man on her kid  
She had so many men until she couldn't keep it here  
I left that woman, one morning, just about the break of day  
I left that woman, one morning, just about the break of day  
You know I packed my suitcase, made my getaway  
Here I am in Chicago and I am doing very well  
Here I am in Chicago and I am doing very well  
I don't find the woman I love, I'll just live alone by myself  
Baby you gonna weep and moan, fall down on your knees  
Baby you gonna weep and moan, fall down on your knees  
You gonna tell the whole world how you mistreated me
