Surrender

Egypt Central

Breathe in and breathe out
The venom that you have been given
Dig in and crawl out
Make your decision
Are you still with me
Or did you lose your faith when it was shaken
Are you still with me
Do you still believeThis is a call to all the lost
A note to those misunderstood
I'll get your point across
I won't give in
I'll never surrenderI've been torn down
Rebuilding the trust of the fallen
Worn thin with doubt
Follow your calling
Are you still with me
Do you still believeThis is a call to all the lost
A note to those misunderstood
I'll get your point across
I won't give in
I'll never surrenderI need to dig in
Not scratching the surface
But tearing a hole
Revisit my purpose
Get back what I soldAre you still with me
Do you still believeThis is a call to all the lost
A note to those misunderstood
I'll get your point across
I won't give in
I'll never surrenderThis is a call to all the lost
This is a call to all the lost
This is a call to all the lost
I won't give in
I'll never surrender
