

# Warrior

## Xavier Rudd & The United Nations

He was a warrior in every way  
And he was always listening  
Dedication to peoples displaced  
And he was always listening  
If a little birdy flew into his space  
He was always listening  
With the spirit of the ancient ways  
He was always receivingHe said come with me people  
Stand up with me people  
As one and as equals  
Lets honour all people  
Stand up with me people  
As one and as equals  
Lets honour all people  
Honour our peopleShe was a goddess in every way  
And she was always listening  
Dedication to people displaced  
And she was always listening  
And if a lion moved through her space  
She was always listening  
With the spirit of the ancient ways  
She was always receivingShe said come with me people  
Stand up with me people  
As one and as equals  
Lets honour all people  
Stand up with me people  
As one and as equals  
Lets honour all peopleHonour our people  
If she could take him by the hand  
And together they could change the world  
Abolish greed from every man  
And spread their medicine throughout the world  
And every sun would rise and fall  
And restore complete balance on the earth  
A brand new change for one and allDo you feel what I'm sayin
