Great Scott

Inspection 12

I think she might just have it for me
Maybe shell find me interesting.
I'll have to wait and see.
I've got her. I'm the guy in the band.
You had her-she slipped out of your hands.
You got screwed over
And now its over, yea.
Trying to impress me will prove worthless.
Already gave you a chance.
And given clues you'll realize it too,
You miserably failed the test.
So how long will it be till I can get away from you,
Cause you don't know what to say,
And you don't know what to do.
Someday soon, I'm hoping, you'll be gone.
