

Horse

Quadron

I'll make you love me till my end of time
Make my soul unwind making me a home
Holding me slowly
But I'll still be watching your every move You know that I'll be holding on
Until you get off your horse
Make me a home, make me a home
While seeds are growing your dome And it could have been any other
See a child only needs a mother
I don't need another bother You know that I'll be holding on
Until you get off your horse
Bring me back to the day of nothing
Bring me back to where I came from
