

# He Says the Same Things to Me

**Skeeter Davis**

Shall I tell you what he said to you  
When he kissed you last night  
I could tell it sigh for sigh  
And here's the reason whyHe says the same things to me  
He says the same things to meAnd shall I tell you what he said to you  
As he held you so tight  
Let me tell you from the start  
I know it now by heartHe says the same things to me  
He says the same things to meBut I know how it must hurt you  
To find his love isn't real  
And if your heart is breaking  
Think how I must feelAnd did he tell you, there's no other girl  
That his only love is you  
If he did, there's no surprise  
That's just the way he liesHe says the same things to me  
He says the same things to me
