

Young Robot

Dance Gavin Dance

This time won't blame myself it's been long time coming been a long time coming
This time I know you well it's been a long time coming been a long time coming
Follow me they're gonna follow 'cause I'm on the inside and they're on outside waiting
This time I know myself it's been a long time coming been a long time coming Don't worry
You don't have to bear your soul about it
Go away, you can't stay, you got no more reasons left to come my way
Go away, you can't stay, you got no more reasons left to come my way Brain
Robot wang
Gonna slang through the tang
I-8764
The sex assistant
I-8764
It's no commitment She said
Drink that love don't demand it
'Cause baby I can't stand it
When you look so pathetic
But I can't stop with the rhythm of it
Drink that love
It's like a habit
Feeling like a savage
You know I gotta have it
I, I gotta have it all I wish I didn't miss this
ah ah I gotta have it all
They call me hedonistic
Can't stop with the rhythm gotta have it all
I make them kiss they sistas
ah ah I gotta have it all
He flips his black ass robot hair You're on another planet
