

# Bomb Factory

## UK Subs

There's a bomb in London  
There's a bomb in Belfast  
There's a bomb in Berlin  
There's a bomb in Paris  
And it's burning down your world  
There's a bomb in New York  
There's a bomb in Hong Kong  
There's a bomb in Russia  
There's a bomb in Iraq  
And it's burning down your world  
And it's burning down your world  
There's a timebomb and it's ticking away  
There's a fuse and it's burning today  
There's a factory  
And they're working all night  
On timers, fuses and gelignite  
They're burning down your world  
They're burning down your world
