Medusa

Tarja

Come to see me
I will show you
The island of the rosesCome to love me
I will play you
With fearless temptationClose your eyes and leave the empty grail
Taste the sweet wine from my lips
Face your virgin bride without a veil
And I will forgive you all your sinsDance with me the dance of fire
Feel our worlds colliding
Join me in my cold desire
Last for you to see will be my eyesA beautiful evil cursed with hearts of stone
Feed my hunger with your kiss
Taking a life tonight is mine alone
Give me a luscious sigh of blissDance with me the dance of fire
Feel our worlds colliding
Join me in my cold desire
Last for me to see will be your eyesCome to see me
You will find my
Truth in the reflectionCome to love me
I will call you
The daughter of the darknessCome to see me
You can call me
The daughter of the darknessCome to love me
I will play you
With fearless temptationCome to see me
You will find my
I will find your
Truth in the reflectionCome to love me
I will have you
Suffer in perfection
