Will You Wait Here

Longview

September air comes cold
Feelings rush back and unfold
Speeding, crashing, burning through
Memories in my mind of youGone so fast too fast to catch
Years have gone and can't come back
So now I've closed my eyes
Closing seconds of our timeSee the shore light up night sky
See the beach swing summers high
August shower after heat
Smell of rain on dry concreteFeel the air turn cold around
See leaves fall blur the ground
Wet road slide slither by
Catch reflections petrol skyWill you wait here
It's coming around nearWhen I feel I can't move on
And my will is not so strong
Moments of uncertainty
Behind your smile I want to beDown the front where we used to talk
Down the streets where we used to walk
These places I will beWill you meet me?[Repeat: x2]
While I'm still please do not wake me
'Cause I'm in another place
