Wastin' Gas

Dallas Smith

She's lookin' Friday night ready
Tearin' up interstate twenty
Got the tank topped off
Dust flyin' like confetti
In the rear view
Got a clear view
Of these getaway tracks
You got the seat kicked back
Radio bumpin' that glass
You lookin' at me
Lookin' at you surfin' that hand
With the power lines
Yeah in no time we're nowhere fastWe're just wastin' gas, woah
Blurring them dotted lines
Killing all kinds of time
Baby, like we ain't coming back (woah)
Steal a kiss, maybe two
Pull it off for a few
Gonna hang as long as I can
You know I don't give it a damn
If we're just wastin' gasEvery once in a while
It'll backfire like a gun
I see that needle creeping down
Like a setting sun
Making every little memory one of a kind
You and I riding high all nightWe're just wastin' gas, woah
Blurring them dotted lines
Killing all kinds of time
Baby, like we ain't coming back (woah)
Steal a kiss, maybe two
Pull it off for a few
Gonna hang as long as I can
You know I don't give it a damn
If we're just wastin' gasWe're just wastin' gas, woah
Blurring them dotted lines
Killing all kinds of time
Baby, like we ain't coming back (woah)
Steal a kiss, maybe two
Pull it off for a few

Gonna hang as long as I can
You know I don't give it a damn
If we're just wastin' gasHere we are, we're just wastin' gas
Wastin' gas
