## **Love Calling Earth**

## **Robbie Williams**

Love is calling earth Do you know how much is hurts? I didn't die overnight In the wind I had candlelight I'm controlled by my fear All the voices in my head That I can hearPlease don't hurt meHow do I learn To give and love and be loved in return If this is heaven I'm falling I'd rather run and jump away Than to see it burn I feel I could die Before I sleep I kiss your cheek And say goodbyeI'm so sorry Please don't hurt meThis is love calling earth Do you know how much it hurts? I didn't die overnight In the wind I had candlelightI'm controlled by my fear And all the voices in my head That I can hearI'm so sorry Please don't hurt meIf you could see me through my mother's eye Only then would you begin to realise All the places I have ever been Have scared me half to death or somewhere in-betweenI'm so sorry
