

# Simplify

## Underbelly

Little boys and girls, livin' lost in the world  
I guess their mommas and their papas just forgot how to love them  
Sad people everywhere, thinkin' nobody cares  
How we ever gonna reach, each and every one of them  
Oh the complicated nature in the way this world revolves  
Can trick us into thinkin' we've got problems we can't solve  
We gotta get back to the basics, break it down to black and white  
Take a little time to rewind and simplify  
Open up your heart, just one little spark  
Can ignite that fire that'll guide us to Heaven  
Right here, right now, everybody sing loud

One by one, we can help them together  
Oh the complicated nature in the way this world revolves  
Can trick us into thinkin' we've got problems we can't solve  
We gotta get back to the basics, break it down to black and white  
Take a little time to rewind and simplify  
Oh the complicated nature in the way this world revolves  
Can trick us into thinkin' we've got problems we can't solve  
We gotta get back to the basics, break it down to black and white  
Take a little time to rewind and simplify  
Take a little time, take a little time  
To simplify
