

# Where

## Ultraspank

There  
Somewhere out there is a better day  
Somewhere out there has to be  
Better than today hopes to be  
Anyway  
To be a part of anything  
Shows me what I've missed  
To be a part of all the answers...  
My wish  
Stand there before me  
With your emptiness, emptiness  
So true to form  
So true to all I've missed from you To be a part of anything  
Shows me what I've missed  
To be a part of all the answers...  
My wish  
I've run from you before  
And closed this door  
To be a part of anything  
Shows me what I've missed  
To be a part of all the answers...  
My wish  
I'll miss you anyway  
And I'll miss you anyway
