

Same Old Story

From Ashes to New

Verse 1:

It's stuck on repeat
Making me breathe
Ever so deeply inside
Am I sleeping
I've tried screaming
Nothing can keep me alive
It seems easy
Make believing
Leaving these feelings behind
It's deceiving
Guaranteeing
Nothing is seemingly right

Pre Chorus:

Can't look away
Can't bare to watch but want to see
I can't escape
This flood that I jumped in
Without a trace
I vanish from the air I breathe
Last gasp I take
I thought nothing was something

Chorus:

The best thing to ever happen to me
Has now become the worst thing
It's still the same old story, it's still the same old story

Verse 2:

It still replays
All of these days
All of these ways
That it died
Paths that we made
Left to decay
All from betrayal and pride
Feels like D-Day
When we stay
Like cars on freeways that collide
Let's be safe
And not retrace
Mistakes that we made throughout time

Bridge:

If I make it out alive
I'll make it my last goodbye

Outro:

Still the same old same old

Still the same old story
