

# Phucking Phreak

## Velvet Acid Christ

Murder the feelings all left aside,  
From all of those days that you try to hide,  
You lift out the anger and cut it dry,  
You soak your tears away, now you can fry, Your mind melts away, you go with the flow,  
You hold it down, but you can't let go,  
You try to speak, but you hear no sound,  
Laying on the ground, expressed into sanity  
Where you will never be, "You fucking freak, shut your fucking mouth." [x3] `Cause we're all dead, `Cause  
you're all dead [x4] We went into the night,  
We cut off the right,  
We won't feel a thing,  
We're so insane, "This man, a disgusting man who could barely stand up. A man that if you saw on the streets  
you would point out to your friends so you could join in mocking him. A man who if you saw him while you  
were eating, you wouldn't be able to finish your meal." Disturbed thoughts, distort your mind,  
You're penetrated, obliterated,  
We all face it, We all try to hide,  
The unrelying, The lie, The feelings, the how, the when, and the why,  
We always lie, we always lie,  
We always cry, we always die - you "Just sitting around reading Guns & Amo, masturbating in your own  
pheces. Do you just stop and go; Wow, it is amazing how fucking crazy I really am."  
[x2] "You fucking freak." "This is a man who dedicated his life to making money, by lying, with every breath  
that he could muster. To keeping murderers and rapists on the streets." "you murderer." "You fucking freak."  
[x3] "You fucking freak, shut your fucking mouth." Push away the feelings you left, so far away,  
We walked into the sun,  
And we left our hopes astray,  
We hope to live another day,  
But when you break it all down, There's really nothing left to say [x3]  
So babble away... [x2] "So ugly on the inside that she couldn't bear to go on living if she couldn't be beautiful on  
the outside." "A drug dealer, A drug dealing pederast actually, and let's not forget the disease spreading  
whore." "You fucking freak, shut your fucking mouth." "You fucking freak." [x2] Cause that's how they pay "The  
world this shitty." "Could you even try to say that these were innocent people and keep a straight face?" "We see  
a deadly sin of every street corner, in every home, we tolerate it, we tolerate it, because it's common of us.  
Because it is trivial. We tolerate it morning, noon, and night." "The world this shitty." "We see a deadly sin,  
We see a deadly sin,  
We see a deadly sin on every street corner,  
in every home,  
and we tolerate it,  
because it's common of us,  
Because it is trivial
