

Moongirl

Stellastarr*

Outside, there's a spaceship
Blocks the sun
Forms a shadow hovering over me Yesterday I had missed it
But today, there's a girl who shows me everything I said: ohhh, she was the moment
I said: ohhh, she was the moment
I said: yeah, moongirl Let's surf on the horizon
To the moon where the world will look much clearer to me One day I'll be finished
But today, there's a girl who shows me everything I said: ohhh, she was the moment
I said: ohhh, she was the moment
I said: yeah, moongirl
