

Heaven's Open

Mike Oldfield

This is that morning
It's waiting for you
The face of destiny
Standing before you
This is zero hour
Now is for you
Can you feel that power
Inside of you?
Through this priceless moment
In your possession
Answers to mysteries
Stand in succession
This is zero hour
And there's no way back
Can you feel that power?
In its arms you're wrapped
All through the night-time
'Til the sun comes in
Now heaven's open
Just to fly right in
Now you stand in that garden
This is that vision

Out on the world's edge
It's your baptism
This is zero hour
And your hands are free
Can you feel that power?
It's ecstasy
All through the night-time
'Til the sun comes in
Now heaven's open
Fly right in
Waiting for night time
'Til the sun comes in
All through the night time
Let the blue sky in
Heaven's open
The sun comes in

Heaven's open
Let that blue sky in
You know, sun comes in
Now, heaven's open
Fly right in
