

# Child Of The Wild Blue Yonder

John Hiatt

She has the wind as a witness  
She has feelings that fly by night  
She believes in forgiveness  
But it's not love if it holds too tight And you can fly beside her  
But you gotta go where your heart says go  
She lets the bright lights guide her  
Through the rain and the drivin' snow  
Where she comes from she don't know [Chorus:]  
She's a child of the wild blue yonder  
Flying out of here  
She's a child of the wild blue yonder  
Born in an angel's wing If you see her falling  
That's just a little trick she does  
She makes a dive for the pain that's calling  
Then heads for the clouds like a little dove She can't help her laughing  
She can't stop your crying days  
Sometimes it hurts to be having  
To hold on a love that surely must fly away [Chorus:]  
Medicine woman raised her  
Spirit father praised her  
Through their love she was set free  
From a baby kicking and screaming  
To a full blood woman dreaming  
With the power just to be [Chorus:] twice
