

Avion

Kat Edmonson

Gotta sail away on a big jet plane
Gotta take a ride where no one knows my name
Sunday in the park
He had me seein' sparks
Now it's up in the air
See if I still care when I get back to New York
Avion

I want to ride across the sea and around the sun
Something else for me
That no one else can see
I can't wait any more
What is all this for if I don't feel free
Avion

I want to ride
across the sea
and around the sun
Have you seen the sun in so very long?
It's been raining everyday
When you look for me baby I'll be gone
I'll be far away
Instrumental

Gotta sail away on a big jet plane
Gotta take a ride to the other side where no one knows my name
Avion

I want to ride
Across the sea
And around the sun
Avion

I want to ride
Across the sea
And around the sun
