

Cry it out

Fury In The Slaughterhouse

I don't care what the others say
It doesn't matter me at all
I got the whole world in a six pack, baby
If you know what I mean
Believe me I'm a toilet, baby
I'm just shit and water
And all the officers close their nose
When I drive across the border
Cry it out and shout it out
And no one really cares
I don't mind what your mother says...
