

# Hold Time

**M. Ward**

You were beyond comprehension tonight  
But I understood, I understood  
If only I could hold time  
Hold time, hold time Words have failed me tonight, failed me tonight  
But you knew what I meant, you knew what I meant  
Yeah, you heard what I said the whole time  
The whole time, the whole time And I wrote this song about it  
'Cause I didn't care about anyone in this photograph  
Yeah, I wrote this song just to remember the endless  
Endless summer in your life, endless summer in your life
