

# Born That Way

## David Lee Murphy

(david lee murphy/jimbeau hinson)Came out swingin' and a kickin' with my heels dug in  
Puttin' up a fight like they ain't seen since  
The doctor held me up looked me in the face  
Said he didn't have to slap me but he did it anywayI don't know why  
Just born that way  
No I don't know why  
Just born that wayNo I never had nothin' and I know I never will  
All my daddy left me was a funeral bill  
If something's too easy something's wrong I know  
'cause I was born the gift of a hard way to goI don't know why  
Just born that way  
No I don't know why  
Just born that wayYou know all in all it ain't such a bad lot  
You learn to live with what little you got  
Never had a job that didn't stink  
Never really cared what anybody thinksI don't know why  
Just born that way  
No I don't know why  
Just born that way
