Occupy Your Mind

Dusty Springfield

Satisfy your reason
It will occupy your mind
Even when you're dreaming
Believe
Find another meaning
To determine what you need
Experience this feeling
And believe, believe
In a world so confused
In a world so confused
In a world so confused
In a world so confused
Believe
Love will pierce the dark cloud
Of unknowing and reveal
All that you were dreaming
And believe
These communications
Will descend on you en masse
So what I'm saying, baby
Is believe, believe
In a world so confused
If you feel love refused
Believe
In a life so defined
You could find time
To change your mind
Believe
In a world so confused
If you find love refused
Believe
In a life so defined
You could find time
To change your mind
Believe
Occupy your mind and you'll believe
Occupy your mind and you'll believe
Occupy your mind and you'll believe
Believe

In a world so confused
In a world so confused
Believe
Occupy your mind and you'll believe
