

Outta Heart

Hot Hot Heat

Make sure to wake me when you get back from the dead
I'll still be lying here in bed
All of your followers - they steal what you feel
It's just a shame it ain't real It's in you to give
It's in you to take
It's in you stand up
It's in you to break
All of these people are waiting for someone to show them the way I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck
I'm outta the know
I'm outta control but I want you to know
I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck
I'm down on my knees
If it matter to you I guess it matters to me Effortless compliments wrapped up in useless advice
A battle of wit with an army of mice
Beautiful memories pillaged by termites of time
Denying it all to a bottle of wine It's in you to give
It's in you to take
It's in you stand up
It's in you to break
All of these people are waiting for someone to show them the way I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck
I'm outta the know
I'm outta control but I want you to know
I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck

I'm down on my knees
If it matter to you I guess it matters to me
Are you worth your weight in gold?
Are you worth your weight in gold?
Are you worth your weight in gold?
I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck
I'm outta the know
I'm outta control but I want you to know
I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck
I'm down on my knees
If it matter to you I guess it matters to me
I'm outta my soul
I'm out in the dark
I'm outta my mind
and I'm outta my heart
I'm outta my luck
I'm outta the know
I'm outta control but I want you to know
I'm outta my soul
