Scott Weiland & The Wildabouts

What I see with closed-up eyes
Don't believe it's a disguise
What I see with closed-up eyes
Don't believe it's a disguise Look away
We gotta white light blinder
Come my way
You know I'll always find her In about a second
Or a week or two
I gotta tell ya a lil riff
About what she can do Half way home
But in the nick of time
I was taken by surprise
By this girl of mine I can see why no one finds you waiting
I can't breathe so if you hear me sinking Look away
We gotta white light blinder
Come my way
You know I'll always find her In about a second
Or a week or two
I gotta tell ya a lil riff
About what she can do Half way home
But in the nick of time
I was taken by surprise
By this girl of mine I can see why no one finds you waiting
I can't breathe so if you hear me sinking I can see why no one finds you waiting
I can't breathe so if you hear me sinking What I see with closed-up eyes
Don't believe, it's a disguise
Looking back at all the wasted time
In the life, in the light I can see why no one finds you waiting
I can't breathe so if you hear me sinking I can see why no one finds you waiting
I can't breathe so if you hear me sinking
