Everlasting

Kate Earl

another time another place
Id feel worthy of your love
But I been stuck inside this cage
Cause its the only place i know
And Ive been broken on the floor
So many other times before
Watching some one I trust
Walk out on me
So dont walk out on me
Ive always been unsure in love
I hated being vulnerable
But with you somehow I know
A love like this is everlasting
i Got you underneath my skin
Cant you see the state im in
I decide to let you win
Cause love like this is everlasting
Love like this is everlasting
Another time I would ignore
My tear stained cheeks and
Ask for more, believing
thats all I deserve because
I gamble I get burned
love is just another savage game
I played and played and played
but it looks like fate has saved the best for me
are you to best for me?
Ive always been unsure in love
I hated being vulnerable
But with you somehow I know
A love like this is everlasting
Got you underneath my skin
Cant you see the state im in
I decide to let you win
Cause love like this is everlasting
Love like this is everlasting
I dont wanna give up what we got
cause Im not gonna ask what might have been
I dont wanna give up what I got

When im with you baby
I dont wanna give up what we got
Cause im not gonna ask what might have been
Not for anything Ill take my chances with you baby
Ive always been unsure in love
I hated being vulnerable
But with you somehow I know
A love like this is everlasting
round you I am someone else
someone closer to myself
took some time but I can tell
love like this is everlasting
