

Keep Me Around

Turin Brakes

Tu tu tu tu tu
Tu tu tu tu tu tu tu
Tu tu tu tu tu
Tu tu tu tu tu tu You killed the crowd in my head
With the naysayers dead
I guess I can finally
Let go of all my uncertainty
All great divides meet their demise Tu tu tu tu tu
Tu tu tu tu tu tu tu
Tu tu tu tu tu
Tu tu tu tu tu tu Meet me in the honey of ourselves
We're one in a billion bullets of love
We'll ride helpless and happy
If heaven's the edge, then what lies above? If I am all you've found
An extra arm to wrestle down
Will you keep me around? Tu tu tu tu tu
Tu tu tu tu tu tu tu
Tu tu tu tu tu
Tu tu tu tu tu tu This world so inexplicable
Parallel universe ticks out of time
Guess if the gods have gone crazy
Then we found the place for us to dive If I am all you found
An extra arm to wrestle down
Will you keep me around? Tu tu tu tu tu
Tu tu tu tu tu tu tu
Tu tu tu tu tu
Tu tu tu tu tu tu Oh keep me around
Oh keep me around
Oh keep me around
Oh keep me around
