

When You Pretend (From "Artists and Models")

Dean Martin

Although you're stuck with Dean's there's money in your jeans

When you pretend

The wolf that's at your door is not there anymore

When you pretend Ah there's nothing you can't be

Just wish and see

Why the world's your cup of tea

Some dish says me The happiness you find is all a state of mind

That's true my friend

And life is filled with happy endings

When you pretend There's nothing you can't be

Just wish and see

The world's your cup of tea

Some dish says me
