Urban Decadence

Agnostic Front

Subway ride a free ride somewhere I can't explain
Another night, I climb a ten-story building
Just to spit on a passing parade
Suspect defeat change the TV stationAs the media takes over your brain
Expedite, unite, bring yourself together
Before you drive yourself insane
Some say, I'm crazy but there's no other way
What goes around comes around goes around againStolen car, one more of a thousand in the city
That never sleeps another please help me
I'm drowning in the sewers running under the streets
Newscast, outcast, stranger to society, stranger to the trends today
Exclaim, refrain say what you're thinking, prison in so many ways?
