The Daze

Goapele

These are the Daze my friend We're so far from the end But we can't wait forever and a day Forever and a Day One for your City Two if you're prissy Three for the raw real homie Rollin' wit' me Four's like the voice in my head Getting dizzy Five get it so live The cops come & get me Six for the politrix Seven call the Reverend Eight DNA certain way You a felon Nine feeling fine Even when the sun shady Ten that's a dime Goapele do it crazy If you miss me when I'm gone Just know riding on a sky plain You never know I could be wrong Sometimes I'm weak When I feel strong Push on Be strong Don't wait Lean on Sometimes Pray on Hold on Because These are the Daze You gotta go for broke I'm taking all my chances

And if you're scared of transit...

Run for cover

Light is fading

It's getting dark

The sun is fading

Oh they told me

Live today

Like your gonna live forever

Tomorrow paves the way

For the rest of your life

Even if we lose some along the way

It's not worth the hate

No time to hate

Black prophet

Still grandma collar poppin

Do anything for a twenty dollar profit

They push into yo kitchen til yo momma holla stop it

If it ain't first class

Then I'mma try the cockpit

Had some ups & downs

Been dumped around

It's nothing

"cause we ain't sufferin' now

For life we lusted

In God we trust

But now don't discuss it

We going for bust

Hold tight

It's not

Too late

Take it

Right now

It's in

Your hands

Because

These are the days we gotta go for broke

I'm taking all my chances

And if you're scared of transit...

Run for cover

Light is fading

Its getting dark

The sun is fading
